2021 - 2022

Shree Tax Shilla Vidyalaya, Junagadh
10th (SSC) | GSEB | 80.00/100.00
2019 - 2020

SKILLS

Technical Skills:
- Languages: JavaScript, Dart, Java
- Frameworks & Libraries: React, Flutter, Asp.Net Core
- Backend: Node.js, Express.js, Asp.Net Api
- Databases: MongoDB, SQL
- Version Control: Git

Soft Skills:
- Problem-Solving
- Team Collaboration
- Agile Methodologies

CERTIFICATIONS

- Angular Hackathon (Dec 2023): Built an Employee Management System
.
- ANVESHANA Hackathon (Sep 2024): Showcased problem-solving in a national-level competition.
- SQL (Sep 2023): Advanced queries & database management(ID: 5D962E193996).
- JavaScript (Sep 2023): Scripting & web development (ID: F4C59D3B13FD).
- Python (Jun 2024): Programming & data analysis (ID: EBOFB8FFF2CA).

PROJECTS

StockNova – Inventory Management System
(Sep 2024 – Feb 2025)

- Developed a complete inventory management solution with ASP.NET Core (backend), SQL (database), and a custom-built frontend. Features include real-time dashboards, product management (add, edit, delete, view), customer and dealer tracking, sales monitoring, and stock & sales report generation for seamless business operations.

Farmer Direct Market
(May 2024 - July 2024)

- Created a Flutter, Node.js, and MongoDB platform to connect farmers directly with buyers, removing middlemen and ensuring fair pricing through secure transactions. Features include real-time product listings and seamless order management for better efficiency.

Food Recipes App
(Mar 2024 – May 2024)

- Built a Flutter app with MongoDB-based API, offering a variety of recipes with ingredient details, instructions, and user reviews. Includes personalized recipe recommendations based on user preferences.

HOBBIES

- Playing video games
- Traveling and exploring new places
- Reading technology blogs & journals
- Playing chess & strategic board games
- Watching movies & TV shows
